

# Java Output Methods

[< Previous](#)[Next >](#)

## Output Methods

The **System.out** stream, short for "**output**", is used together with different methods to output values or print text to the console:

| Method                 | Description  |
|------------------------|--|
| <code>print()</code>   | Prints text or values the console                            |
| <code>printf()</code>  | Prints formatted text or values to the console               |
| <code>println()</code> | Prints text or values to the console, followed by a new line |
